6. Steps for uploading new products

1. In homepage of store select product option from the sidebar

- Home
- Orders
- Products**
- Customers
- Marketing
- Discounts
- Content
- Markets
- Finance
- Analytics

Sales channels >

2. Now click on Add Product at right upper corner

The screenshot shows the 'Products' section of a commerce platform. On the left is a sidebar with various navigation links like Home, Orders, Products, Customers, Marketing, etc. The main area displays a table of products with columns for Status, Inventory, Category, and Channels. A red box highlights the 'Add product' button in the top right corner of the header.

3. A product adding window appears fill the required sections like name of product, description, add photos, categories , tags and price

The screenshot shows the 'Add product' form. It includes fields for Title (Short sleeve t-shirt), Description (Rich text editor), Media (Upload new or Select existing), Category (collapsed), Price (\$ 0.00), Inventory (Quantity and Shop location), and Shipping (Physical product). Other sections like Theme template, Product organization, and Price details are also visible.

7. Steps to update existing products images

1. Select the product and click on it a editing window open , click on + button to add images.

The screenshot shows a product management interface. At the top, there are filters for 'All', 'Active', 'Draft', 'Archived', and a '+' button. Below this is a table with columns: Product, Status, Inventory, Category, and Channels. Three items are listed: 'Underdawg attire' (Active, Inventory not tracked, Activewear, 2 channels), 'Cropped Polo Shirt' (Active, Inventory not tracked, Sports Bras, 2 channels), and 'Sports jumpsuit-dress light blue' (Active, Inventory not tracked, Leotards & Unitards, 2 channels). To the right of the table, there's a note about fabric functionality and a 'Media' section. The 'Media' section contains two images of clothing items and a '+ Add media' button. Below the media section is a 'Category' dropdown set to 'Activewear in Clothing' with '2 suggestions'.

2. Select or upload images of the product

The screenshot shows a 'Select file' dialog box. It has a search bar and filters for 'File type', 'File size', 'Used in', and 'Product'. Below the search bar is a large input field with 'Add media' and 'Generate image' buttons, and a placeholder 'Drag and drop images, videos, 3D models, and files'. Below this are six thumbnail images of clothing items, each with a file name and extension: 'IMG-20240727-WA... JPG', 'IMG-20251027-WA... JPG', 'IMG-20240730-WA... JPG', 'IMO-20240727-WA... JPG', 'IMG-20240727-WA... JPG', and 'IMG-20251027-WA... JPG'. At the bottom of the dialog are 'Cancel' and 'Done' buttons.

8. How to change the price of existing image.

1. Select the product to change the price

The screenshot shows a product management interface, identical to the one in step 7, with a list of three products: 'Underdawg attire', 'Cropped Polo Shirt', and 'Sports jumpsuit-dress light blue', all marked as 'Active'.

2. A editing window will open scroll to price section on this window and change the price of your choice.
